Newport Corporation
Statement Regarding Compliance with Directive 2011/65/EU
on the Restriction of the Use of Certain Hazardous Substances
in Electrical and Electronic Equipment (Recast) (the "RoHS Directive")

Newport Corporation ("Newport") is committed to the protection of the environment and to compliance with all laws and regulations that are applicable to Newport's products and operations. The RoHS Directive restricts the use of certain hazardous substances in "electrical and electronic equipment" or "EEE" (as defined in the RoHS Directive) in excess of maximum concentration values tolerated by weight in homogeneous materials as specified in the RoHS Directive. The restricted substances are: lead, mercury, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE), each with a maximum concentration value of 0.1% by weight, and cadmium with a maximum concentration value of 0.01% by weight.

The products listed below that are manufactured and/or sold by Newport do not constitute "EEE" as defined in the RoHS Directive. As such, these products are not within the scope of the RoHS Directive.

However, to Newport's knowledge after reasonable investigation as of the date of this statement, the products listed below either (1) do not contain any of the six substances restricted by the RoHS Directive (as listed above) in concentrations exceeding the maximum concentration value set forth in the RoHS Directive (as described above), and/or (2) contain such a substance but are in compliance with the RoHS Directive in accordance with one or more of the application exemptions set forth in Annex III of the RoHS Directive.

Part Number	**Description**
SBX018	Fused Silica Bi-Convex Lens, 25.4 mm Diameter, 20.0 mm EFL, Uncoated

This statement is being provided for informational purposes to assist Newport's customers in their regulatory compliance efforts.
