Cable Kits for Direct Drive Motor Stages XPS Series

1.0 Introduction

This document describes the cable kits necessary to connect your Newport stage to your XPS-Q, XPS-RL or XPS-D controller.

RECOMMENDATION

We recommend you call your Motion Control Newport representative if you are unsure of your choice.

WARNING

The cables included in these kits are shielded correctly. For a correct operation, make sure to lock connectors (ground continuity provided by the cable).

WARNING

Keep the motor cable at a safe distance from other electrical cables in your environment to avoid potential cross talk.
