## As a New Lab Program Member you also receive 15% off all other Opto-Mech & 20% off Loose Optics

Missed something on the first order? No worries. When you start your new lab with Newport, you can enjoy 15% off all opto-mechanical components (excluding packs) and 20% off all loose optics, on every order for a year! Unique items such as our beam routing OpticsCage+™ or self-aligning A-Line™ lens mounts, and high performance ZeroDrift™ thermal compensating mounts are all great options to give you a new horizon of performance and efficiency with your new lab.

BroadBeam™ 350-1100 nm dielectric mirrors

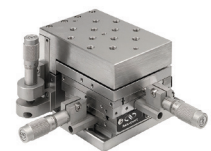

A-line self-aligning mounts

OpticCage+

ZeroDrift Thermally Compensated Mount

562-XYZ ULTRAlign Precision Linear Stages

**New**

### PX Series Forkless Optical Pedestals and Posts

- **Most Compact - Takes up 1/3 space of standard pedestals**
- Mounting fork not required, highly stable for maintaining long-term alignment
- Flanged or straight versions made with stainless steel or aluminum

**New**

### ZeroDrift™ Thermally Compensated Optical Mount

- **85% Reduction of Thermal Drift**
- Near-Zero Deviation After Temperature Cycling
- Most thermally stable stainless steel mount in the market

**New**

### Basic Spherical Lens Kit

- **Lowest price lenses 20%-25% discount**
- Complementary labels and cleaning tools
- Standard uncoated N-BK7 lenses

**New**

### ValuMax® Microscope Objective Lenses

- **Most affordable general purpose objectives in the market**
- Visible AR coated
- Corrected for 195 mm systems

**New**

### BroadBeam™ Ultra-broadband High Reflector Mirrors

- **350 – 1100 nm wide wavelength range**
- R ave >97.5% for both S and P polarizations
- More durable coatings compared to metal

**New**

### M05 Half Inch Aluminum Mirror Mount

- Front- or rear-load optic mounting
- Alignment pin slots and adhesive wells for optic bonding
- **Lowest price 0.5" aluminum mount in the market**
